Director of the Mint

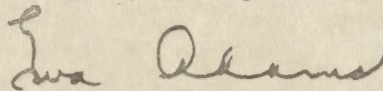

Dear Friend:

The Mint is now taking orders for the 1969 Proof Coin Sets.

Those who are familiar with the Proof Coin Sets, know they are pieces prepared from special blanks, struck with highly polished dies to assure the mirror-like finish, which identifies these sets. They will be produced at the United States Assay Office in San Francisco, where the 1968 Proof Coin Sets were made. The 1969 Proof Coin Sets will carry the "S" Mint Mark, as did the 1968 Sets, and will be packaged in precast plastic containers. As orders are received, the United States Assay Office at San Francisco will send acknowledgments as promptly as possible. It may be several months, however, before your order can be filled, due to production and packaging schedules.

The Proof Coins will be sent to you by first class registered mail. We would appreciate having all correspondence regarding Proof Coins directed to the Officer in Charge, United States Assay Office, Numismatic Service, 350 Duboce Avenue, San Francisco, California, 94102.

For those who have not received their 1968 Proof Coin or uncirculated Sets, we beg your continued patience. The sets are still being mailed out in accordance with the Bureau of the Mint's policy of filling orders as quickly as production and packaging schedules will permit.

A handwritten signature in dark ink, appearing to read "Eva Adams". The signature is fluid and cursive, with the first name "Eva" written in a larger, more prominent script than the last name "Adams".
